Wireless Digital Intraoral Camera
Einstein Stella

All You Needs Fits in This Slim Body.

Wireless Digital Intraoral Camera - Einstein Stella

Instant set-up.
No wiring required.

Einstein Stella maintains the superb ease of use with the fingertip operation and also provides more advanced features to your practice. The convenience and readiness of wireless connection simply add more values to the camera and effectiveness to your practice.

Pick your color

Einstein Stella comes in 5 different vivid colors.
Pick your favorite color or the one match with your clinic.

Excellent Portability

Wireless intraoral camera can always provide a quick and efficient "Informed Consent" whenever you want. No more wasting your precious time setting up the camera every time you switch rooms.

Easy Maneuver to Capture

It is always difficult to maneuver the conventional intraoral cameras due to the cumbersome hard-wire (connection). By comparison, because of the WIRELESS capability, our intraoral camera enables you to take close-up shots from various angles as well as positioning the camera to take tooth in a row. Moreover, the fully enhanced auto-focus function makes image capturing much simpler than ever before.
