GXC-300

GXC-300 Intraoral Camera - The Simple Tool For Patient Education

Gendex continues their long tradition of providing dental professionals with quality imaging equipment with our brand new, GXC-300 lightweight intraoral camera. Combining the latest video technologies, the GXC-300 is an exceptional tool for patient education, higher case acceptance, and improved patient communication.

Maximum Portability

- High-speed direct USB connection with no docking station required
- Features a lightweight handpiece and reduced cabling
- Disconnects effortlessly for quick transfer to another operatory

---

Advanced Technology

- Virtually eliminates image distortion by utilizing true optics
- Sliding adjustable focus button for maximum performance in both intraoral and extraoral viewing modes
- Side capture button allows for Quad-Image capture
- State-of-the-art 4 LED lighting system

Improved Performance

- Camera activation controlled automatically by holster and always-active software interface
- Holster can be mounted almost anywhere so it's always within reach
